Spring into action with these specials!

March 17, 2019

For many of us Spring can't get here quick enough this year, and for that reason alone we're bringing Spring Savings to you early!

For a limited time receive 30% OFF a system tune-up. This includes the removal of unnecessary start-up items and services, cleaning up unused software, installing FREE anti-virus (good for 1 year), an anti-virus and Malware scan of your system. All systems are professionally cleaned of dust and debris. Offer valid until April 1st.

As we quickly approach the repeal date (April 23rd) for Net Neutrality Congress fights back to try and restore the original regulations before the deadline.

Congress issues new legislation to restore regulations

Server Maintenance

Please welcome Salem to our team!

We are proud to bring on Salem as part of our team last fall. Salem has an interest in Robotics, will be attending South Tech next year, and is an accomplished chess player. Salem is a self-starter, and hard worker who is always looking for ways to improve things.

Internet of Things & Home Security

What is the "Internet of Things", and why is security so important?

Read more on in our article on 40 South News below for important information about home Internet connected devices.

CAT Computers on 40 South News
Welcome Josh to the team!

Many businesses depend on a central server to handle various tasks from email management to file storage and web-hosting.

Because your server(s) is the backbone of your business critical maintenance is a necessity. Many standard maintenance practices cannot be performed with just the click of a button.

CAT Computers offers monthly server maintenance starting at a fraction of the cost of keeping an in-house IT Department or network administrator.

Extending the life of your server and keeping maintenance tasks and security patches up-to-date can save your business both money and lost time in the event of a problem.

Ask us about a FREE network analysis today!

CAT Computers has been proudly serving the Greater Saint Louis Area for over 15 years.. We provide computer repair and support services to both home, business users, and non-profits - including dedicated network, vendor and infrastructure management services.

Josh also joined our team last fall. He loves working with computers and building them, and is interested in both engineering and IT. He is is also a skilled chess player and enjoys a challenge.

Friday/Sat 10am-10pm
Sunday 11am-6pm

Are you prepared if your hard drive suddenly fails?

It can be devastating to lose thousands of family photos and other documents when a hard drive crashes. Data recovery can be very costly. We offer solutions for both laptops and desktops, both cloud and local backup solutions.

Hard drive, flash drive or sdcard that died?

CAT Computers providers in-lab professional recovery service, and we are also partnered with clean-room recovery labs, should your drive be in need of physical repair or parts replacement.

We work with hard drives of all types, sd cards, flash drives, etc.

Got a question? Call us anytime.. that's what we're here for! The T in tech shouldn't stand for trouble, we prefer it stand for training. Our technicians are happy to answer any questions you might have. For many people technology changes so quickly it's hard to keep up. Let's the experts at CAT Computers help answer your questions.

Have an old non-working computer around your home or business?

What to do with it? **GO GREEN**

Tel: **(314) 646-1880**

Email: tech@fixthecomputer.net

We frequently have old non-working computer systems laying around the shop - and Rona put this one to good use. It's the planter you see above.
